

GIGANTOONZ

Release Date:27/01/2022

GID:gigantoonz

Gigantoonz

WHAT'S THE STORY?

You may have thought the Reactoonz story had come to an end...

Oh no, it's only just begun.

Dr Toonz and his creations are out-of-this-world. But there is something bigger, much bigger, on the horizon – even bigger than the Reactoonz leader, Gargantoonz.

It's the Reactoonz themselves. They just keep growing.

FEATURES

One of our favourite series, the Reactoonz series just keeps growing!

The charger features an animated Gargantoon integrated and applies different features to the Mega symbols for ultimate entertainment throughout gameplay.

When forming wins, a Mega Symbol counts as a single symbol but its has a higher cluster value. If a Mega symbol won't fit, it splits in the value to create single symbols that will fill the empty spaces.

Need a little energy boost? On non-winning rounds five to 10 Quantum Wilds may be added randomly to the grid. But Gargantoonz Wilds will only appear when he's awoken by the Quantumeter.

The Quantumeter has four charge levels, when there are no more cascades the next charge feature in line triggers.

DISINTERGRATIONS

Collect 25 charges to start the energy boost and remove all instances of four randomly selected symbols,

METAMORPHOSIS

Collect 50 to trigger this stage where randomly selected symbols will be randomly transformed into a different symbol including Mega symbols!

MEET THE CHARACTERS

GARGANTOON

The leader of the Reactoonz, Gargantoon who plays an even BIGGER role in this latest installment of the Reactoonz series.

IN-GAME ARTWORK

Once again little Reactoonz serve as symbols on the grid, the eyes determine value as seen in previous games.

We love working with vivid colours and the Reactoonz grid are the perfect place to experiment with different shades – a bit like a chemical reaction!

RADIATION

Another 25 to make 75 charges in total and adds up to four Mega symbols and two to five Quantum Wilds randomly.

GARGANTOONZ

Finally, 100 charges to awaken Gargatooonz from his slumber! All Mega symbols will be transformed into Mega Gargatooonz, at least three Mega Gargatooonz will appear regardless of what is on the grid. Then a Mega Gargatooonz will split into a 1x1 Gargatooonz which are removed as usual.

This is another piece to the Reactooonz puzzle and we're far from finished...
